infinity link

2 Way Wireless Transceiver Module for EC, EC-i, ESL & Runner Control Panels

infinity series long range wireless allows installers to specify professional, correctly positioned products without excessive labour, unpleasant trunking or conduit. With up to 500m range, almost any site can be accurately secured.

The infinity link is an intelligent interface module that connects other infinity series wireless devices to EC, EC-i, ESL or Runner control panels. Infinity links can be cloned to support multiple links on one site, or to utilise the same infinity remotes between multiple sites.

Features

- 5 year warranty
- Frequency: 915MHz OR 868MHz
- Input voltage: 10-15VDC
- Built in high gain PCB antenna
- Simple plug in bus connection
- Supports up to 254 infinity wireless devices
- infinity 2 way encrypted wireless protocol
- Supports all other infinity wireless devices
- Bicolour LED status indicator
- Dimensions: 90 x 52 x 7mm

Compatibility

EC, EC-i, ESL & Runner control panels.
